

PHARMACY SERVICES / MEDICATION USE

STANDARD / ELEMENT	EXPLANATION	SCORING PROCEDURE	SCORE
<p>25.01.31 STANDARD: Pharmacy Services. The hospital must have pharmaceutical services that meet the needs of the patients.</p> <p>§482.25</p>	<p>WHAT IS INCLUDED IN PHARMACEUTICAL SERVICES?</p> <p>Pharmaceutical services encompass the functions of procuring, storing, compounding, re-packaging, and dispensing all medications, biologicals, chemicals and medication-related devices within the hospital. They also include providing medication-related information to care professionals within the hospital, as well as direct provision of medication-related care.</p> <p>MEETING PATIENT NEEDS</p> <p>Hospitals must provide pharmaceutical services that meet the needs of their patients.</p> <ul style="list-style-type: none"> The scope and complexity of pharmaceutical services available in the hospital must be consistent with the volume and types of patients the hospital serves. Except in unusual circumstances, the pharmaceutical service is expected to make available in a timely manner the volume and types of medications typically needed. <p>These would be those medications typically prescribed by the hospital’s practitioners for hospital patients receiving inpatient services, surgical services, diagnostic services involving medications as a component of testing, and outpatient drug therapies administered while the patient is in the hospital.</p>	<p>INTERVIEW AND DOCUMENT REVIEW</p> <p>Surveyor:</p> <ul style="list-style-type: none"> After reviewing all CMS standard-level requirements for this chapter, identification of CMS standard-level deficiencies within the Condition of Participation should be cited here if the non-compliance does not rise to the Condition level. Do NOT include HFAP-standard deficiencies with this decision. <ol style="list-style-type: none"> Ask the hospital for evidence of the scope and complexity of its pharmaceutical services. Ask how the hospital has determined that the services meet the needs of its patients. Ask unit nursing staff if prescribed medications are routinely available and timely. If there are reports of frequent delays or other problems, probe further with the director of pharmaceutical services. 	<p><input type="checkbox"/> 1 = Compliant <input type="checkbox"/> 2 = Not Compliant</p> <p>This standard is not met as evidenced by:</p>
<p>Not every hospital is expected to offer the same level</p>

of pharmaceutical services. For example:

- It would not be uncommon for a psychiatric hospital to maintain a relatively limited pharmaceutical service, due to minimal need for compounding, and/or dispensing multiple types and forms of medications and biologicals.
- On the other hand, a short-term acute care hospital with a busy oncology outpatient service and other complex medical and surgical departments would be expected to provide a wider range of pharmaceutical services that are ready to be furnished when needed.
